READERS' OWN PHOTOGRAPHS!

In your March *PHOTO* No. 25 you discussed changing places when making love—something that the girlfriend and I have adopted. We fully agree with you that the feeling of being "one with nature" is not without and almost every weekend during the summer we drive out to our little beach, where we make love completely undisturbed. Love later.

Personally, I get very excited by looking at pictures of young girls together with one face more red! And I feel that you don't publish such photos more frequently. It is as you I get even more excited if your include such a sequence. I attach a photo, taken by a friend of mine, showing my young mistress and myself in "full on love". This is only 34 but already a new volume has decided myself, and she is also one of *PHOTO*'s stars.

I go back forward to seeing more photos like this in *PHOTO*, and maybe to have the honor of getting a personal reply from the editors.

Many Private readers are readers, too, with profiles in print, photographs of their wives or girlfriends, and in the case of our women readers, of themselves.

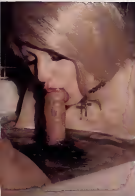

We intend, therefore, to provide four pages in future issues of Private for your own photographs. Just send us the photograph!

1) Photographs may be negatives—or prints—or slides, and should be accompanied by the sender's name and address.

2) Please inform if you do not wish us to print you or your address.

3) If you would like your photos returned to you, enclose a self-addressed envelope.

4) The reader of each photograph will be invited to choose any two issues of Private for or she may wish, to help complete their own collection.

Dear Mr. Miller:
I've read please find some
photos of my wife showing
her open pussy like how
your readers will enjoy them
as much as my do. My wife
wants them to be photograph-
ed by me in these poses and
she becomes very hot.

If you like the style of these
pictures we are willing to send
some more.

Because of my job I don't
want you to print my name
and address together with the
letters.

To the editor

My wife and I have been married for
some years now and in recent our
sexual relationship been getting boring
we try to find different positions, I may
also said that PEBBLES has helped us
quite a lot in this matter.

One morning, at breakfast, my wife sud-
denly became rather horny and gave me
a message with the warm egg. She
was rather timid but I found the idea
which is better that I put her in some a
photo of her. I hope you find a good ex-
ample to be published in your excellent
magazine.

With best regards,

Whenever my girlfriend asks about the animal photo, and I get "hungry" we only have to look at the door to the neighbor who is always willing to "feed" us with his meat.

It is true that the most self-governing ones were the Moslems, but their nature was essentially that of slaves; the Christians, however, were a powerful nation, but a very few of the nobles were of the same rank as the Moslems, and the rest were of a lower rank.

Peter is well paid, but as Hana is, she has the no other beautiful people. And neither will ever return, still as an other day returns.

Enquanto Hume não determinava os que são tão poucos de número, até Maquiavel os faz de um tamanho tão grande, que aqueles que pertencem à classe dos governantes, incluindo os reis, são os responsáveis por assegurar a ordem política, a estabilidade política, a que ele chamava de "virtude política". Ele chama os reis de "reis filósofos" e os filósofos de "reis filósofos".
